

**Rate Schedule "90P"**

**SCHEDULE FOR INTERRUPTING AND CURTAILING PROPANE GAS SERVICE**

**AVAILABILITY**

Rate Schedule "90P" is applicable throughout the service area of Greater Dickson Gas Authority.

**CHARACTER OF SERVICE**

Propane gas service under Rate Schedule "90P" is limited as to annual, monthly, and daily delivery volumes allowed and is subject to interruption and curtailment in the event that the gas supply of Greater Dickson Gas Authority is not adequate, due to emergency requirements or supplier curtailments, to meet the demands of the customers of Greater Dickson Gas Authority. Greater Dickson Gas Authority shall notify affected customer of its curtailment period quantity entitlement and the curtailment period during which it will apply when bulk route deliveries are made or when will call customers call for delivery. Greater Dickson Gas Authority may modify the announced curtailment period quantity entitlement if conditions so require. Curtailment shall be based on the following priority of service categories:

- (a) Emergency facilities necessary for the safety of the general public, including fire departments, police, hospitals and communication towers;
- (b) Bulk customers including commercial, industrial and cylinder fill stations;
- (c) Will call and C.O.D. customers will receive delivery based on the existing five (5) working day notice by the customer requesting delivery.

The Authority reserves the right to limit total gallons delivered to any customer while taking the following factors in consideration.

- (a) Customer alternative heat source;
- (b) Customer usage and delivery history;
- (c) Delivery driver's knowledge of delivery history.

Insofar as practical, service will be curtailed in accordance with the reverse order of priorities set forth above, beginning with service (c) and continuing as required. In the event of a short-term emergency curtailment caused by unforeseen supply reductions, force majeure conditions, requirement of emergency repairs to a delivery vehicle or weather conditions such as snow or ice covered roads that would limit delivery the above curtailment schedule may be modified or revised by Greater Dickson Gas Authority to accommodate actual emergency requirements.

The priorities specified herein shall be superseded by any different priorities made applicable to the Authority by the Authority's propane gas supplier or by any State or Federal governmental agency.

### **RULES AND REGULATIONS**

This Rate Schedule "90P" is subject to the Rules and Regulations of Greater Dickson Gas Authority which may from time to time be in effect.
